### **PROJECT DESCRIPTION:**

The U.S. General Services Administration submitted a federal consistency determination (FCD) for a potential lease site that is approximately two acres and located in Arlington County. The site is approximately 300 feet south of the intersection of Army Navy Drive and South Fern Street. The area has been graded and mostly covered by gravel. It has been used as a parking lot. A building of approximately 667,759 square feet will be constructed on the project site for lease by the National Science Foundation. The FCD states that the proposed project is consistent with the enforceable policies of the VCP.
